

ICE LANTERNS LIGHT THE WAY

On the night of Christmas Eve ice lanterns were placed along the paths to the New Church to light our way in the dark. The Cross-Over group together with other members of the congregation had used balloons, water, deep freezers and night-lights to create these works of art. Almost 20 exquisite ice lanterns were prepared for the Christmas Midnight Mass. The well attended service in the New Church started at 11.30 pm with community carol singing, followed by the candlelit Christmas Midnight Mass.
