

# News from Edward Betham Church of England Primary School

## Roof space put to good use

Start date – Friday 16th July, 2010

Steel girders put in place to support the new floor

Former classroom space changing

A new staircase under construction

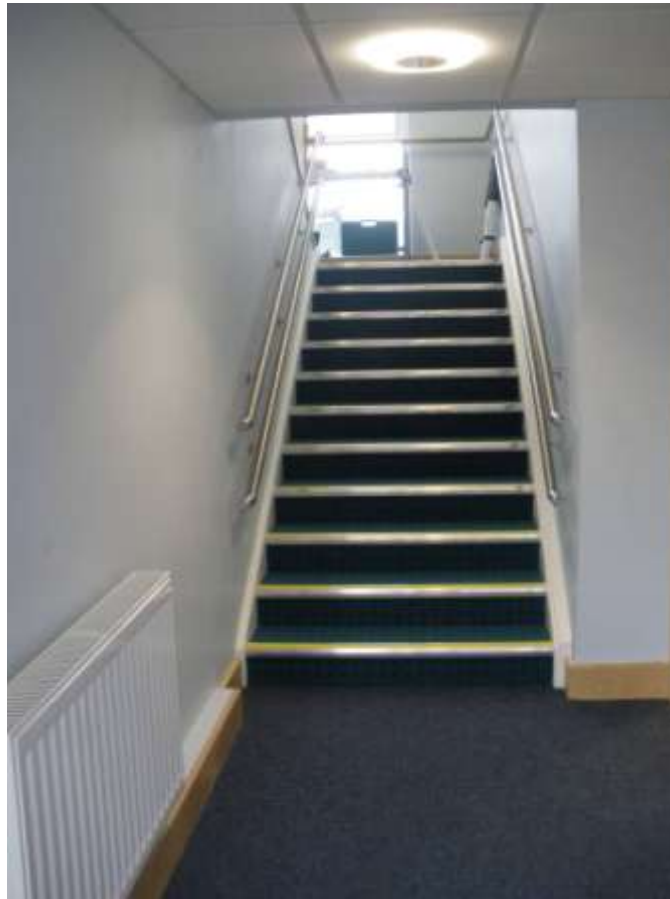

New holes are made to bring sunlight into a classroom

A view never seen before!

The new space starts to look like a classroom

Our new staircase is looking good!

Tuesday 2nd November 2010, the children are now happily working in the new classrooms.

The Governors and staff and pupils are delighted with this development which will, eventually, see the former classroom space in use as a Reception area, meeting rooms and the Head's Office. We are grateful to Steve White of the LDBS and Rod Baker of Baker and Associates for the vision and the practical skills involved in bringing this great scheme into reality.
